

I added prefixes of T to the tone labels in the hash table using the following:

```
awk -F '\t' -v OFS='\t' '{ $4="T"$4 } { $5="T"$5 } { print }' 20111213-1-kiy-ap-framedwordlist.txt
```

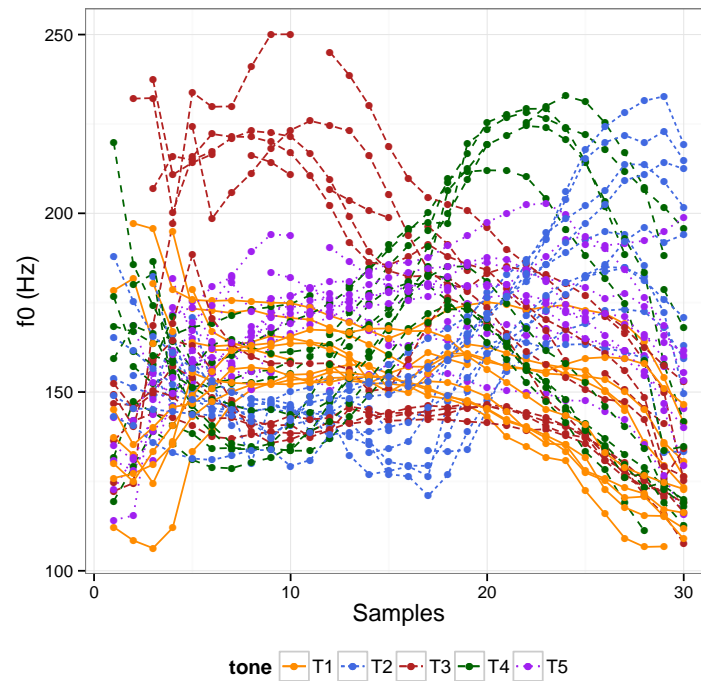

Figure 1: All tones on top of one another.

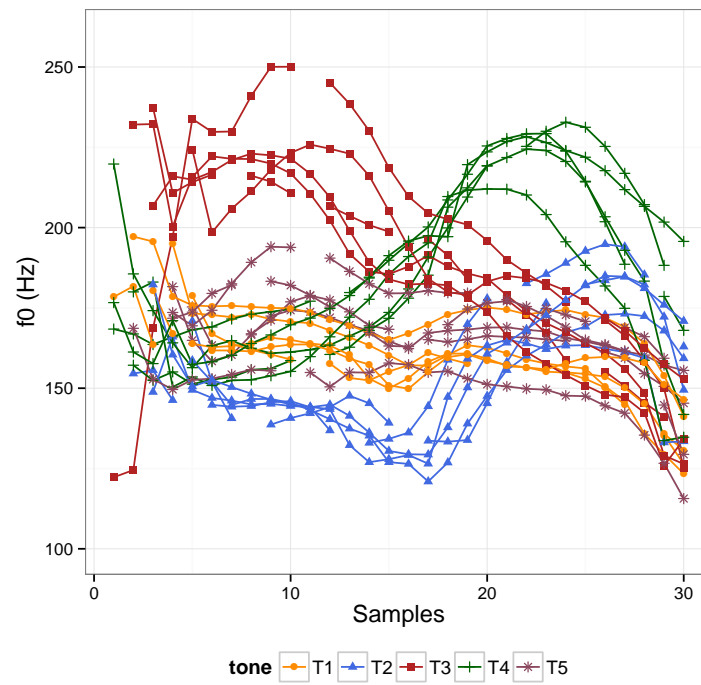

Figure 2: All tones for word 1

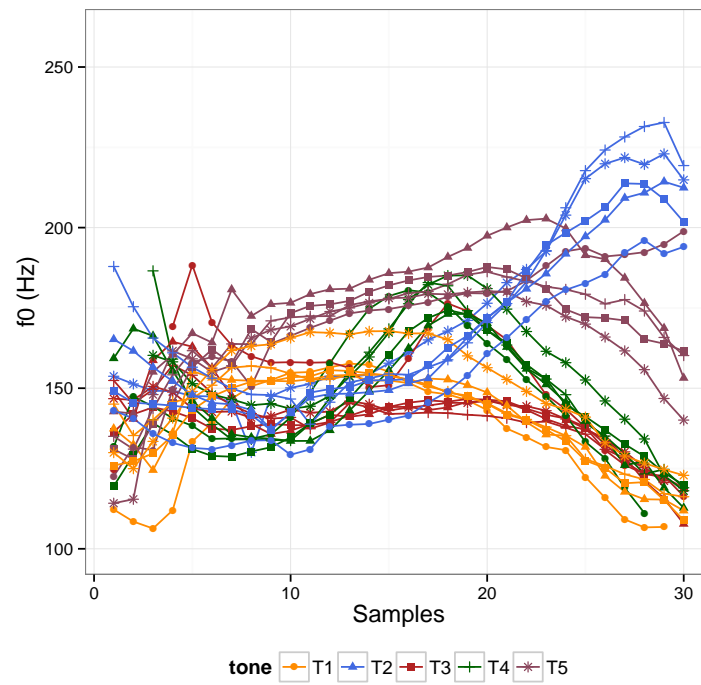

Figure 3: All tones for word 2

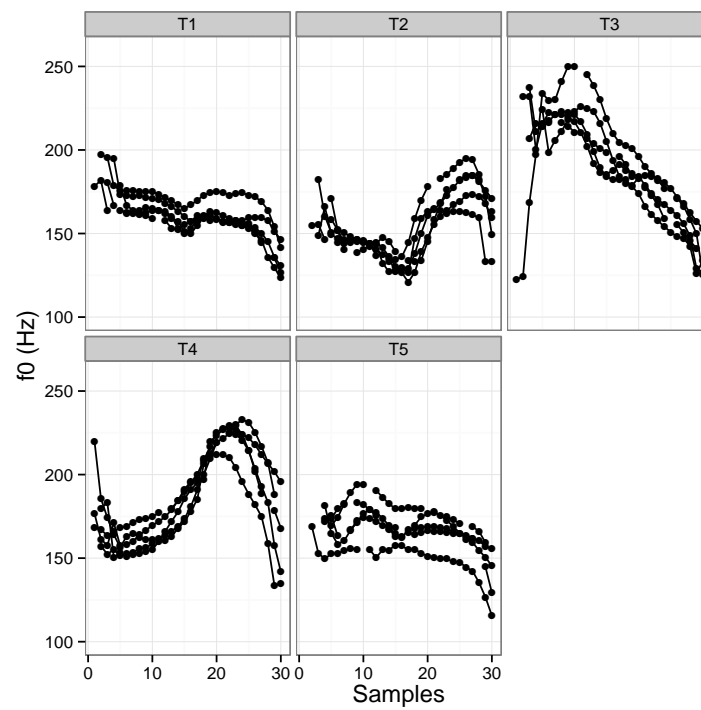

Figure 4: All tones for word 1, faceted

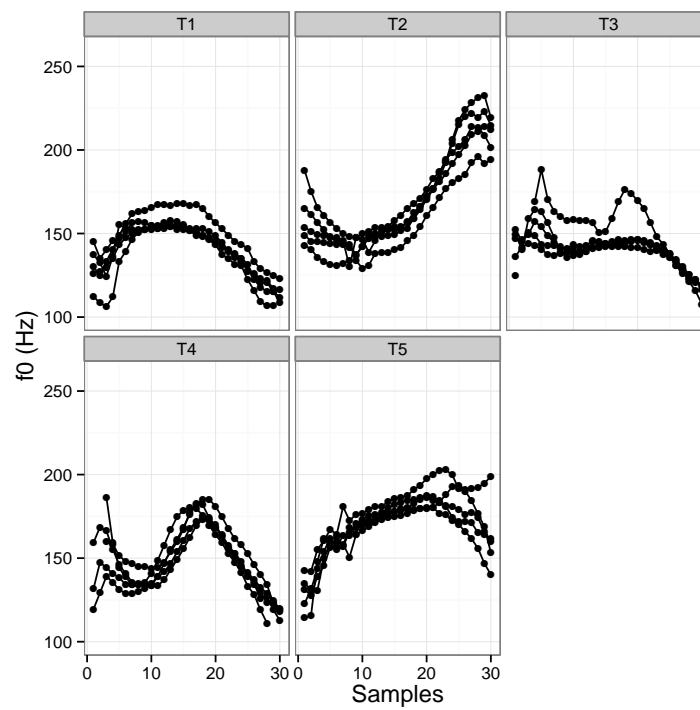

Figure 5: All tones for word 2, faceted
